APPROVAL OF CONSTRUCTION

Project Description:

Yavapai Estates Arsenic Treatment System. AOC Permit for 1-Siemens Waterboy Model WB-82 Coagulation/Filtration Arsenic Treatment System with all necessary Components. To replace Existing Absorptive Media Treatment System.

Location:

Chino Valley, AZ

Project Owner:

Wilhoit Water Company, c/o Mr. Jim West

Address:

365 E. Coronado Road, Suite 200, Phoenix, AZ 85005

The Arizona Department of Environmental Quality (ADEQ) hereby issues an Approval of Construction for the above-described facility based on the following provisions of Arizona Administrative Code (A.A.C.) R18-5-507 et seq.

On August 18, 2010, ADEQ issued a Certificate of Approval to Construct for the referenced project.

On March 30, 2011 Robert D. Upton, P.E., certified the following:

- A final construction inspection was conducted on March 23, 2011;
- The referenced project was constructed according to the as-built plans and specifications and ADEQ's Certificate of Approval to Construct;
- Water system pressure and leakage tests were conducted on March 7, 2011, and the results were within the allowable leakage rates;
- The water storage system was disinfected according to an ADEQ-approved method; and
- The applicant has the right to appeal this AOC Permit. Appeal information is on reverse side of this Permit.

Microbiological samples were collected on March 9, 2011 and analyzed on March 10, 2011 by Bradshaw Mountain Environmental Laboratory, ADHS License No. AZ0029. The sample results were negative for total coliform.

This Approval of Construction authorizes the owner to begin operating the above-described facilities as represented in the approved plan on file with the ADEQ. Be advised that A.A.C. R18-5-124 requires the owner of a public water system to maintain and operate all water production, treatment and distribution facilities in accordance with ADEQ Safe Drinking Water Rules.
